

Shoot i am
going to be
late for class
due to a train
blocking my
way!

Thankfully
there is an
app that
tells me
where trains
will
be in
advance!

Mwhuahahhah,
Today I will now
block people from
getting to class

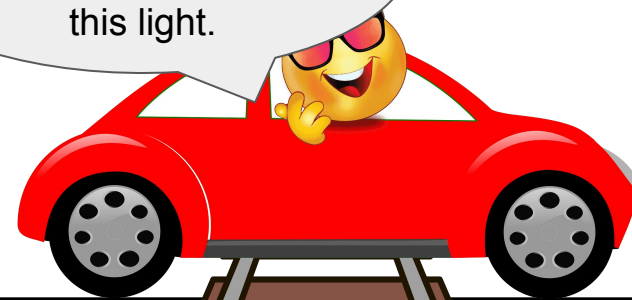

Thanks to the app
telling when that train
was coming through, I
avoided that evil train
by planning in
advance

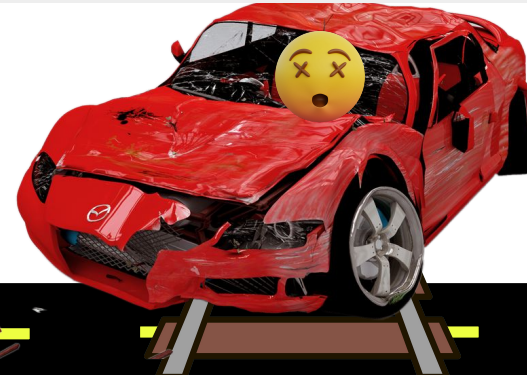

What a beautiful day, I can't wait to get to class!

It won't be a big deal if I wait on this train track so I can catch this light.

AAAAAAHH
HHHH!!!

Too late now, if only they used an app to suggest a route to class without trains.
